What is Meal Pixy?

Meal Pixy is a not-for-profit, web-based meal planning service that helps you quickly choose the recipes you want to eat for the week and turn them into a ready-made shopping list. It shows live UK supermarket pricing, so you can see the cost per serving for each recipe, compare supermarkets, and choose the cheapest place to shop. You can also see the total cost to cook each meal, with air fryer and oven methods included where relevant. Powerful filters make it easy to narrow recipes down to the meals that best suit your week.

How do I access the Meal Pixy service?

Simply visit: mealpixy.org and click on the 'Get Started' link. Complete the simple form and sign in via your Google or Facebook account. If you don't already have an account we offer a 3 month trial – after which you can redeem your gift code to further extend your subscription.

How do I redeem my Gift Code?

When a subscription (paid, trial or community) is due to expire we pop messages up in prominent places in the Meal Pixy service to let you know that your subscription is shortly due to expire. These messages include a link to your accounts 'Subscription' area where there will be clear direction as to how to redeem a code. At any point in your subscription you can also go to your Subscription page and click on the 'Redeem a code' button to use the code.

How can I get help if I need it?

Click on the 'Help & Support' link at the bottom of any page on the Meal Pixy website. There are loads of help articles there to answer any questions you may have – and if you still need help just click on the 'Contact Support' link, complete the form and we'll be in touch via email to assist you further.
